

Oasis II Rooftop Tent

Simply the most practical rooftop tent ever invented.

- Lightweight - only 40lbs!
- Easy set up takes just moments!!
- Extremely comfortable!
- Works with aftermarket or factory crossbar and rack systems!
- 300D fabric is waterproof, breathes, and offers excellent durability!
- Included ladder will extend over 9 ft for taller trucks!
- Strong aluminum frame will not warp or rust!
- Includes a rainfly/sunshade for extreme weather conditions!
- Low profile design for has negligible effect on fuel economy and wind noise.
- Travel cover is fully removable and waterproof.
- Fully screened with 2 overhead windows for great cross tent ventilation and comfort.
- No permanent installation required, stores easily off the vehicle when not in use.
- Can be used on almost all vehicles, big or small.
- Perfect for weekends away or around the world expeditions!

The Oasis II Tent is the state of the art rooftop tent. Lightweight and modern, the design was perfected by one of the original rooftop tent patent holders after years of testing an development. Waterproof and strong, the Oasis II will provide years of enjoyment and help you save thousands on hotel rooms, and the view is great too!

The Versatility of the Oasis II is amazing. Easily mounted on any crossbar system it is the perfect tent for cars and pick-up alike. Simple, easy, and comfortable.

Small Car? No problem, at 40lbs the Oasis II is the answer. Shown here fitted to a small European 4 door hatchback on aftermarket crossbars. The perfect camping solution for people who want comfort, but need the economy of a smaller car or SUV.

Room with a view! Desert camping in the heart of Africa. Tested worldwide, the Oasis II works well in any environment! Note the stable, tall, and easy to climb adjustable ladder included with the Oasis II tent system.

Camping in the same spot for a few days? No trouble with Oasis II, just lift it from the roof and set it on the ground. With built in feet you will enjoy the excellent comfort just 6 inches off the ground.

Oasis II fitted with included aluminumized fly for extreme weather. Reflects sun in the desert and adds an extra layer of waterproofing during heavy rains.

Soft Flannel lines the nylon mesh sleeping surface on Oasis II. Stretching much like a cot, the Oasis II offers excellent support for a good night's rest.
